ENAIRE

Advanced Management of **ANS CORPORATE SERVICES EXPERT**

COURSE

THREE MONTHS PROGRAMME

TRAINAIR PLUS

INTRODUCTION

ENAIRE, one of Europe's leading air navigation service providers offers this unique training package for aviation professionals to enhance their expertise through **the Advanced Management of ANS Corporate Services Expert**, accredited by the ICAO TRAINAIR PLUS Programme.

ENAIRE **has been awarded** by the International **Civil Aviation Organization (ICAO)** in recognition of its contribution to the development of aviation professionals worldwide.

COURSE HIGHLIGHTS

Target Audience: Aimed primarily at Air Navigation Service (ANS) staff, airlines, airport managers, regulators, military authorities, meteorology providers, industry professionals and consultants.

Comprehensive Training:
Acquire the competencies required to manage corporate support services for ANS provision in accordance with ICAO SARPs, associated guidance material and making use of best practices applied worldwide.

Expert Instructors: Learn from a highly qualified team of industry experts and university instructors who bring their experience and knowledge to provide a current and comprehensive approach to all components of ANS.

LEARNING OBJECTIVES

- Familiarize with the approaches and methods aimed at assessing the workforce of an ANSP, and the definition of personnel profiles for the proper functioning of the service provider.
- Familiarize with organizational models and assess adequacy and efficiency to accomplish different functions.
- Describe organizational requirements for ANS provision.
- Familiarize with economical aspects of the air transport.
- Describe the applicable regulatory framework of ANS economical and financial regulation.
- Assess different corporate models for air navigation services provision, including private services.
- Interpret economical and cost-efficiency issues related with the provision of ANS.
- Identify the financial statements and explain their content.
- Calculate basic ratios to determine economic and financial performance.
- Apply financial tools to assess investing and financing decisions.
- Analyze decisions using the Cost and Benefit Analyses.
