A maximum amount of four prizes will be awarded, each of them consisting of 3,000 euros: two projects about air navigation and another two about airports.

- **Innovation Award in the Drone Sector**, which recognises those works, studies, projects, articles, technical publications, etc., that make a unique contribution to innovation in the drone sector, in the fields of aircraft design and aircraft system technologies (including propulsion, communications, control, etc.), drone production, operation, and traffic management, as well as the development of new applications.

By means of this award, the ENAIRE Foundation intends to stimulate the sector's competitiveness and the generation of new technological and operational concepts.

It is awarded annually and it consists of a sum of 12,000 euros.

- The **Journalism Award** for editors that have carried out journalistic works published in 2019 in any of the official languages of Spain or in English in newspapers, magazines, online platforms or broadcast on radio or television in our country. The topic presented must be related to air transport and navigation, as well as to airport facilities and services in general. Up to three articles may be presented per entry.

It is awarded annually and it consists of a sum of 12,000 euros.

- The **Photography Award** includes photographers that are residing in Spain or have exhibited in our country in the last 5 years. It recognises original works, either artistic or of free subject matter, that have not received any prizes in any competitions. Every author may submit up to three photographs. The awarded works will form part of the ENAIRE Contemporary Art Collection.

The works selected by the jury will be displayed at a show on the ENAIRE Foundation Photography Award, which will be held starting 3 June 2020 at the Royal Botanical Garden of Madrid and mark the inaugural exhibition of the PHotoESPAÑA Festival. A catalogue of this exhibition will also be published.

The work of the ENAIRE Foundation

The ENAIRE Foundation is a cultural organisation linked to ENAIRE. Its objectives include the fostering of aeronautical culture and the preservation, expansion and spreading of ENAIRE's artistic heritage. This heritage comprises a notable collection of Spanish and Ibero-American art, spanning from the second half of the twentieth century to the present day. It encompasses more than a thousand paintings, sculptures, photographs, graphic art pieces, works on paper and multimedia artworks.

About ENAIRE

ENAIRE is the company of the Ministry of Transport, Mobility and the Urban Agenda that manages air navigation in Spain. It renders aerodrome control services at 21 airports, including the busiest in terms of air traffic, plus en-route and approach control, from five control centres: Barcelona, Madrid, Gran Canaria, Palma and Seville. In addition, ENAIRE provides communications, navigation and surveillance services to 45 air control towers.

In 2019, ENAIRE handled 2.1 million flights to and from four continents (Europe, America, Asia and Africa), transporting 300 million passengers.

ENAIRE is the fourth most important European air navigation service provider, and, in a clear commitment to the Single Sky initiative, belongs to international partnerships such as SESAR (Single European Sky ATM Research) Joint Undertaking, SESAR Deployment Manager, A6, iTEC, CANSO

(Civil Air Navigation Services Organisation) and ICAO (International Civil Aviation Organization).
