

The artist Isabel Muñoz presents an outdoor nighttime projection at the Naves de Gamazo in Santander

- This activity is part of the ENAIRE Foundation's participation in the 4th edition of PHotoESPAÑA Santander
- The audiovisual piece by photographer Isabel Muñoz will be projected on the façade of the Naves de Gamazo
- To mark the occasion, the centre will be open to visitors at night

Santander, 8 September 2022

An outdoor projection by photographer Isabel Muñoz will be shown on the façade of the Naves de Gamazo on Saturday, 10 September at 10 p.m. It revolves around the "Las Anjanas de Cantabria" project, which continues with her latest line of work, focusing on the problems resulting from climate change and excess plastic in the sea.

The Naves de Gamazo, which in July marked its first year in service having received over 50,000 visitors, is contributing to this new outdoor activity that transcends the enclosed space of the Naves, by bringing contemporary art to the masses in an effort to win over the public through different languages and expressions, thus fulfilling its vocation of public service.

For years, the exhibits of the annual photography awards presented by the ENAIRE Foundation have inaugurated the festival at the Royal Botanical Garden in Madrid, which marks the start of PHotoESPAÑA nationwide. This shared trajectory with the Festival has now been reinforced with the participation of the ENAIRE Foundation in PHotoESPAÑA Santander.

Isabel Muñoz is one of the most renowned figures in Spanish photography, having received, among others, the National Photography Award. She is known for her personal creative language and awareness of the problems facing today's society, which she approaches through a constant search for beauty.

In this audiovisual piece that the artist will present at the Naves de Gamazo, included in the programme of PHotoESPAÑA Santander, she brings back the figure of Anjanas, magical and mythological beings that are deeply rooted in Cantabrian tradition. Legend has it that they are fairies that help human beings when they need it.

In "Las Anjanas de Cantabria", we discover an anjana that has known Cantabria for thousands of years and that looks on with concern as rising water temperatures and levels threaten to wipe out this land she loves so much. The anjana falls in love with a human who is playing in the water. The two of them thus begin a love affair whose result - like the ultimate fate of the oceans - is unknown to us.

The work of the ENAIRe Foundation

The ENAIRe Foundation is a cultural organisation linked to ENAIRe. Its objectives include the fostering of aeronautical culture and the preservation, expansion and spreading of ENAIRe's artistic heritage. This heritage consists of a notable collection of Spanish and Ibero-American art, spanning from the second half of the twentieth century to the present day, and encompassing more than a thousand works of all types. In addition, since last July, the ENAIRe Foundation has had a permanent venue for the ENAIRe Collection of Contemporary Art at the Naves de Gamazo in Santander.

About ENAIRe

ENAIRe is the air navigation service provider in Spain.

As a company of the Ministry of Transport, Mobility and the Urban Agenda, it provides en route control services for all flights and overflights from five control centres in Madrid, Barcelona, Seville, Gran Canaria and Palma, as well as approach services to every airport in the country.

In addition, 45 control towers receive ENAIRe's communication, navigation and surveillance services, and 21 airports, including the country's busiest, rely on its aerodrome control services.

ENAIRe is Europe's fourth largest air traffic manager. Since 1 January 2022, it has chaired the A6 Alliance, a coalition of air navigation providers responsible for over 80% of European air traffic, and which is seeking to modernise the air

traffic management system. It is also a member of other international alliances promoting the Single European sky, such as SESAR Joint Undertaking, SESAR Deployment Manager, iTEC, CANSO and ICAO.

ENAIRe, as the agency appointed by the Ministry of Transport, Mobility and Urban Agenda to implement the U-space system in Spain, will be the provider of the Common Information Services (CIS), which are essential for administering U-space services to drones and Urban Air Mobility, in interaction with local air traffic control services, so that all types of aircraft can fly safely in the same airspace.

ENAIRe has received the highest score in Europe on the aviation safety key performance indicator. It has also been awarded the EFQM 500 Seal for its safe, efficient, innovative and sustainable management of air navigation services.
